Objective:

To leverage my experience and skills as a Telecommunication Engineer and become a valuable member of a professional team. I am dedicated, hardworking, and committed to achieving corporate objectives while adhering to ethical and legal boundaries. My goal is to grow professionally and personally within an organization.

Professional Summary:

A highly skilled Telecommunication Engineer with expertise in Wireless Networks, Fiber Optics System, and Microwave Transmission Planning. I have attended several symposiums and seminars related to emerging technologies. I have a Bachelor's degree in Telecommunication Engineering from Mehran University of Engineering and Technology Jamshoro, I possess outstanding communication skills and a proven ability to work in a team and independently.

Professional Experience:

Geo Television Networks

Satellite Engineer/Communication Engineer | 4th September 2009 – 4th September 2025.

As a Satellite Engineer for Geo News, I have been working on Swedish, Tandberg, Ericsson, Dexin equipment and covering numerous catastrophic events, including sea storms and floods. I have led a team of three DSNG staff and ensured that there have been no major faults in DSNG equipment under my supervision for the past four years. My key responsibilities include:

- Preparation of weekly and monthly reports of the DSNG, including maintenance and assignments
- Preparation of daily logs and reporting them to the leadership team
- Conducting weekly testing of all DSNG equipment and reporting directly to the CTO and Senior Manager of Satellite Operations
- Regional technical lead for managing and covering special events.

Fiber Tech Communication

Communication Engineer | January 2008 – September 2009

As a Communication Engineer for Fiber Tech Communication, I worked as a team leader on the deployment and repair of optical fiber cables from Masroor Air Base Karachi to Malir Cantonment.

My key responsibilities include:

- Creation, maintenance, and updating of various reports required by Implementation Manager or Technical Manager
- Preparation of accurate weekly/monthly progress reports and reporting to Chief Technology Officer
- Conducting site surveys and producing site survey reports with Civil Works teams
- Detailed design of Fiber distribution and splitters to produce Design Overview Report, Node Configuration Design Data, Network Design Layout
- Conducting and monitoring OTDR testing and fiber splicing
- Supervising the Eni Pakistan fiber installation, testing, and commissioning project
- Supervising sites comprising of Ducting, Jointing, and Civil Works, etc.

Pronet Pvt Ltd

Internee | June 2005 – July 2005

As an internee for Pronet Pvt Ltd, I deployed a wireless communication link between two organizations approximately 20 km apart. I gained hands-on experience working with Wireless Bridges, Switches, and APN.

Technical Skills:

Operating Systems: Windows

Development Tools: Ms Word, Excel, PowerPoint

Soft Skills:

- Goal-oriented and aggressive
- Ability to work in a high-pressure environment
- Able to work independently and in a team
- Fluent in both written and verbal English
